

INTERPRETATIONS & APPLICATIONS
OF BUILDING CODES & REGULATIONS #94-1

CODE SECTION : UBC TABLE 18-I-D

05/15/96

SUBJECT : STEM WALL THICKNESS

Table No. 18-I-D of the Uniform Building Code (UBC) requires a minimum thickness for both concrete and masonry foundation (stem) walls, supporting 1, 2 or 3 floors. Since the dimensions of Table No. 18-I-D are considered nominal, the following actual dimensions will be acceptable for both unit masonry and concrete foundation (stem) walls :

NOMINAL DIMENSION ACTUAL DIMENSION

6	5-5/8
8	7-5/8
10	9-5/8
